

Listeners Anonymous

Backend Email Info for Admins

These are details about MXRoute (the company that handles Listeners Anonymous email) and information required to get Listeners' e-mail up and running. Everything else should be intuitive. If it's not, MXRoute has documentation.

Passwords are removed for the document that is posted online. Papaw, Wayfarer, and Peri have off-line access to the passwords.

MXRoute Details

The following are particulars for MXRoute, the service that handles Listeners' emails.

- Email service: MXRoute.com
- Plan name: Small
- Terms: Unlimited emails, unlimited domains
- Fee: \$59/year
- Start Date: 06/11/2026
- Paid by: Peri
- User ID: Redacted
- PWD: Redacted
- Secondary user confirmation code: Redacted

Accessing the Email Admin Panel

1. Navigate to <https://management.mxroute.com/login>
2. Log in using details in previous section.
3. Select *Dashboard* from the left menu
4. On the right side of the window, scroll down to *My Services*
5. Click on *Login to Panel* button on the right side of the window.
6. The admin panel will open.
7. Creating a new email address should be fairly intuitive. If you run into problems, contact Wayfarer or Peri for assistance.

Configuring MXRoute E-mail on Android Devices

Use these settings for incoming mail.

- Mail type: IMAP
- Server: witcher.mxrouting.net
- Port: 993
- Security: SSL/TLS

Use these settings for outgoing mail.

- Mail type: SMTP
- Server: witcher.mxrouting.net
- Port: 465
- Security: SSL/TLS

- Don't panic if the server is the only data your device requests. Most setup utilities auto-detect these settings.

Configuring MXRoute E-mail on iPhone and iPad

Use these settings for incoming mail.

- *Host Name:* witcher.mxrouting.net
- *Username:* your *_Listener_name_*@listenersanonymous.com (your full email address)
- *Password:* your MXRoute password
- *Use SSL:* Yes
- *Port:* 993
- *Authentication type:* Password

Use these settings for outgoing mail.

- *Host Name:* witcher.mxrouting.net
- *Username:* your *_Listener_name_*@listenersanonymous.com
- *Password:* your MXRoute password
- *Use SSL:* Yes
- *Port:* 465

Accessing LA E-mail from Windows PC or Mac

1. Enter www.webmail.mxroute.com in an internet browser's URL field. The Login window appears.
2. Enter your Listeners e-mail address (*your _Listener_name_here_@listenersanonymous.com*) and MXRoute password that was sent in an e-mail titled *Your New E-mail*.
3. Click the blue *Login* button.

E-mail Account Detail

The following are details about the initial setup for email accounts. The table only includes Founder and administrative email addresses. Founders will have changed their own passwords upon assuming control of their account. Administrative passwords will remain as written.

All accounts are IMAP/SMTP. They are also POP3 compatible, but additional setup is required. Check www.MXRoute.com for configuration documentation.
